• **Wide Open**, popular Denver display bull in **2011**, is one of the most unique Simmental sires to come onto the scene in recent history. While in Denver **2010**, he was a high seller and was named **Bull Calf Champion on the hill**.

• His fresh genetics, power and athleticism made him a favorite among purebred breeders and club calf producers alike. His sire Foreman, sired a \$65,000 half interest calf in Denver 2011 and Wide Open's pedigree traces to **X339U** on the top and bottom, plus **Black Irish Kansas**, **Black Mick** and **600U**...maternal legends.

• If you are looking to inject some maternal power into your cowherd without sacrificing eye appeal and performance, Wide Open is an absolute must use bull. **Semen \$25 per unit; sexed semen coming mid spring 2011.**

MATERNAL PEDIGREE - TREMENDOUS POWER - LOADED WITH STYLE
